

## **Boost your Innovation + Entrepreneurship Skills**

The RUN InnoBootCamp series offers a unique, practice-based learning experience for students and educators who want to apply entrepreneurial thinking to real-world challenges.

It's part of the **RUN InnoBoost project**, an initiative of the **RUN-EU European University** and the **EIT HEI Initiative**, designed to foster innovation capacity, start-up creation, and transdisciplinary collaboration across Europe.

**The experience is designed to build concrete competencies in:**

**Bioeconomy**

**Future Industries**

**Social Innovation**
